

During the month of August and September the children at my world Kalamunda have been preparing together with the educators the school holiday program. We have been having plenty of input from parents and children about the things that they would like to participate in and enjoy doing in the holidays. Some of the more popular activities involve rock-climbing for core strength, flexibility and coordination, and creating master pieces from clay, AMF bowling and the one we are most excited for is mine craft day. The children have also been coming up with ideas for our vac care menu and learning about how we can make our meals more nutritious. We have been becoming more aware of what we put inside our bodies and making sure we drink plenty of water now that we are coming into spring. The motto we have been practicing is 2 fruit and 5 veg! And it has been going very well.
